

# Mirovia Group acquires Bright Inventions Sp z.o.o. – software developers with expertise in custom software development – and closes its first deal in Poland

August 19th 2022

Mirovia Nordics AB enters the Polish market by acquiring Bright Inventions Sp z.o.o - a software development studio with expertise in building mobile-centric web platforms and blockchain solutions. In 2021, Bright Inventions had a revenue of 3.93 MEUR and an EBITDA of 1.42 MEUR.

*“We are excited to start our journey in Poland and Central Eastern Europe by welcoming Bright Inventions into our growing family of entrepreneurs. We are very happy that they have chosen Mirovia as their future partner.*

*This is hopefully the first of many successful partnerships moving forward. We are expanding heavily in all of Europe, where Poland and CEE are key markets for us. We are currently looking for more people to join our fast-growing team in Poland.”* says Oleksandr Fomenko, M&A Manager at Mirovia CEE.

Bright Inventions was founded in Poland in 2012 with the goal of creating a workplace where the employees really enjoy working. Bright Inventions offers custom software development for organizations of all shapes and sizes, from start-ups to renowned NGOs and international organizations. With clients from a wide range of industries they have implemented many innovative products such as solutions supporting eco-driving, applications for sportsmen, POS cash register and systems supporting answering calls to emergency numbers.

*“There’s something truly special about the way Mirovia approaches entrepreneurs. We couldn’t wish for a better partner to accelerate Bright Inventions growth while keeping up the spirit that has guided us so far. We are looking forward to making Bright Inventions a strong member of the Mirovia Group and taking advantage of all the opportunities that are opening up for us.”* says Michał Łukasiewicz, Co-CEO at Bright Inventions.
